## ARIZONA KICKER

TERMS OF SUBSCRIPTION: \$4 00  
1 year.....  
6 months..... 2 00

One of the surest signs of Consul G. N. Lee's efficiency is the fact that the Spanish papers call him a dunc.

Secretary Gage wants advice on the currency question. Here it is: Open the mints to the free and unlimited coinage of silver at 16 to 1.

Senators Shoup and Carter have decided to publicly declare for free coinage of silver. The crisis seems to be more than ever contagious.

There is no doubt that Mark Hanna has got the republicans party of Ohio grabbed.

In the resignation of Chas. M. Shannon, revenue collector for Arizona and New Mexico, both territories lose one of the most efficient officers and highest toned gentlemen that either territory can boast of.

Secretary Ling has a scheme to Americanizing the U. S. Navy. In view of the fact that foreign nations have not been consulted in the matter, it may lead to serious international complications.

Paul G. Sarg, an Ohio millionaire has declared for the free and unlimited coinage of silver at the ratio of 16 to 1. This is taken as a bid for the nomination for governor.

The confirmation of McCord, as governor, according to the Gazette, will soon have happened as often as Queen Victoria has been reported on the point of abdicating.

The whole world is reading about millions of people traveling many thousands of miles to see Queen Victoria. Last winter a man in Phoenix saw four queens at one time, and made no fuss about it either.

When we read of a man committing suicide on account of having too much wealth, we are almost tempted to either desert from piling up earthly dross, or else give away a part of the vast amount we have already accumulated.

The frantic struggle which "Bradstreet" makes to explain why business in the west is dull, reminds one of the Greek sophism that nothing moves, it is either where it is or it is where it is not.

The chances are if those valiant Georgia students who are going to fight for Cuba, just for parttime, should be asked to chop a little stove wood or bring in a bucket of water, they would howl like coyotes.

The legislature of the state of Pennsylvania has passed a bill taxing adult male foreigners two cents a day in order to make them take out naturalization papers. From the past experience of that state with its foreign population, we think it would be more in the nature of true economy to pay them a larger sum to not only not become citizens but stay in their own country as well.

WHEN Mark Hanna desired to attend the Ohio state convention with a retinue and other accessories like that of an oriental prince, he just reduced the wages of the miners employed in his coal mines ten per cent to make up the difference between the condition of a monarch and an honest American city.

Tossed on the Fuming Billows  
You may never have been, but if you cross the Atlantic, no matter how smooth the watery expanse, without sea sickness you are—well, a luck voyager, that is all. Old tars who have spent their lives on the ocean waves, who were almost born, so to speak, with their "sea legs on," suffer now and then from sea sickness in very tempestuous weather. Sea captains, tourists, commercial travelers and yachtsmen say that there is no finer safeguard against nausea than Hockley's Stomach Bitters, and it has been equally reliable as a preventive by invalids who travel by steamboat and railroad, and who sometimes suffer as much in those conveyances as ocean travelers do in steamships. Biliousness, constipation, sick headache and disorders of the stomach caused by oppressive climatic influences or unwholesome or at accustomed food or water, always yield to the Bitters speedily. This popular medicine also remedies rheumatic, kidney and nervous disorders, and the infirmities incident to increasing years.

# BISBEE NEWS.

BISBEE, June 25, 1897.  
COPPERINGS.

The circus, which was run in Bisbee during the past week has finally pulled its tents and departed to draw the pesos from the show loving populace of Tucson. The show is somewhat better than the general run of Mexican circuses seen here, and they did fairly well in Bisbee, as long as the Mexicans had money the ring was crowded, and many of our better class of people were enough interested to continue their visits for three or four nights. We were told this morning that Charlie Jones was going with them to learn tumbling but have since found out that this was a mistake.

The drilling match for the Fourth is attracting quite a little attention among the local heavy weights, and supply of drill steel in the C. Q. store is being noticeably decreased by the numerous loads made in it for practicing purposes. About ten couples have already signified their intention of entering the double handed contest and the single drill will probably bring out as many more. The granite quarry near Briggs' milk ranch presented quite a lively appearance so we are told as there were no less than sixteen persons out in that vicinity trying their metal. In fact there seems to be so many desirous of entering, that the committee is now considering whether it would not be advisable to add a second prize from the extra entrance fees. This would bring out all the talent in town and insure a hearty competition and a lively drill.

BISBEE, June 25, 1897.  
COPPERINGS.

The festive watermelon has made its appearance in quantities sufficiently large to make the physicians smile.

As the glorious fourth approaches, active preparations are being made for its fitting celebration.

Constable Tom Vaughn leaves today for Tombstone having in charge E. J. Rin who is sentenced to 90 days in the county refrigerator.

Wm. C. Staehle, returned home this morning. He has been here conducting several cases in the court of S. K. Williams.

Among the purses for the Fourth of July contests is one for \$100 for steer tying. This will no doubt attract a number of cowboys from the valley. It is to be hoped none of them will take their defeat as "Black Jack" did last fourth.

Prof. Ricketts the expert for Phelps Dodge & Co. of New York left this morning for Nacozari, Mexico. This gives color to the report that the Copper Queen Con. Co. were about to begin operations, very soon, on the copper properties at that place.

A Santa Monica excursion is advertised to leave on July 1. Instead of spending money on a trip to the coast our citizens might derive more solid comfort in a trip to some of the many health and pleasure resorts from your own territory and keep at home the money which is yearly spent in California.

Persons on the street last night at about 10 o'clock, were startled by the appearance of a very brilliant meteor in the southeastern sky and which as it neared the horizon, seemed to explode. While no noise of the explosion was heard, the heavens were lit up by a sudden and brilliant flash which lasted two or three seconds.

# FOR OVER FIFTY YEARS.

An old, well-tried remedy. Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Dune Review says: "There is no step backward although the season of midsummer quiet is here." If business should take one more step backward from what it is now in the eastern states, it would have to crawl under the ballisters to do it.

# BUCKLIN'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions and positively cures Piles, or no payment required. It is guaranteed to give perfect satisfaction or money refunded. Prices 50 cents per box. For sale at Tombstone Drug Store.

# LEVI STRAUSS & CO.

### COPPER RIVETED

OVERALLS AND SPRING BOTTOM PANTS.  
EVERY GARMENT GUARANTEED.  
EMPLOY OVER 350 GIRLS.

# WONDERFUL DISCOVERY. A HEALER IN TOMBSTONE

## Why a Cochise County Man Will Not Sell his Cattle.

A Mexican named Juan Carrillo, living near the line, in the southern part of this county, has made one of the most unique and valuable discoveries of the century.

For many years there have been known to exist in the vicinity of his ranch, gold placers, but owing to the fact of the fineness of the particles of gold it was never profitable to work them by the usual process of sluicing or with a rocker, the gold passing over the riffles instead of being caught and held by them.

Below the spot where the prospecting was usually carried on was a saline deposit usually called a "lick" where cattle and sheep would lick the clay and thereby derive the necessary amount of salt to assist the process of digestion.

Lately Mr. Carrillo set apart a number of cattle to be fattened for beef, and for the purpose of drying the meat for winter use. A few days ago being in need of fresh beef he concluded to kill one that had been kept in the pasture where the lick was situated. After cutting the meat up and preparing some for drying, he had the stomach prepared in the usual manner, for tripe. Upon submitting it to the customary process of cleaning he discovered the entire lining of the stomach filled with some hard substance which completely filled a part of the spongy folds which form the source of the gastric juices. A closer examination disclosed the fact that the substance was gold, and upon carefully saving and afterward washing the product he found he had nearly four ounces of the precious metal.

The salt in the earth had chloridized the gold and the inner lining of the stomach had acted, in saving the metal, very much like a coarse blanket in the bottom of a sluice.

Mr. Carrillo next experimented with sheep in the same manner and found the result very much the same only the quantity of gold was less.

Instead of giving his stock salt, as formerly, he periodically turns them on to the "lick" and when he requires anything not produced on his ranch he simply kills a beef or mutton, takes the gold out of the stomach and exchanges it at the nearest store for whatever he wants.

The following table comprises the present taxable property as reported by the Territorial Board of Equalization.

Land.....	\$5,593,577 10
Improvements.....	1,393,285 78
Towns and City lots.....	3,513,009 00
Improvements.....	3,289,880 00
Horses.....	754,542 00
Mules.....	31,476 00
Asses.....	3,180 00
Cattle.....	3,413,901 20
Sheep.....	461,785 00
Goats.....	12,829 00
Swine.....	59,100 00
Railroads.....	5,353,082 55
All other property.....	4,212,514 52
Total.....	\$28,047,176 40

# Advertised Letters.

The following is a list of letters remaining in the general delivery at the Tombstone postoffice for the week ending June 21, 1897:

Johnnie Barnes Ramon Sabedra Martin Decimovich Leon Cabarillo Ramon Grijalba.

When calling for above letters, say advertised, giving date of advertisement.

ENCL SYDOW P.M.

Are you tired, bilious, with constant headache and a general "dull" care whether school keeps or not? feeling? Le Roy's Celery Sarsaparilla just the scientific combinations of remedies that you need.

## Her Wonderful Cure and Prophetic Words.

It is not generally known that Tombstone has several times, of late, been honored by the visits of one of the miraculous healers of human ills, that have in different parts of the United States been curing sickness, healing wounds and restoring the halt deaf and blind, to the use of their physical faculties. The one that has visited Tombstone and who yesterday passed through the city eastward bound, is a woman about 30 years of age of Oriental cast of features and dressed in a garb resembling that in which Murillo loved to clothe his pictures of the Madonna. Several persons in this vicinity can testify to the wonderful power possessed by this woman.

A Mexican living below town has been afflicted for many years with a crippled knee, the result of an injury received in youth, which necessitated the use of crutches. The healer, who calls herself simply Mary, passed her hands over the diseased limb and the man felt instant relief, and upon rising to a standing posture, discovered that he could walk without support and has discarded them altogether.

Many more less wonderful cases might be cited as proof of the wonderful curative power possessed by this strange woman who steadily refuses all remuneration for her wonderful cures other than a night's lodging or a little food.

The woman speaks with a strange foreign accent and gives no other account of her nativity than that she came from the far east and is now making a religious pilgrimage of the world. She relates the historic occurrences of hundreds of years ago with an accuracy of detail that fills one with wonder if not with credulity. To all of these occurrences she claims to have been an eye witness, and she also speaks of the future with the abiding confidence of one gifted with prophecy. When questioned as to when she would return to Tombstone, she replied when there shall be twenty thousand people awakened every morning by the sound of fifty steam whistles, and Tombstone will be the most prosperous city from the Rio Grande to the Pacific Ocean, then I will come to you again. It is confidently expected to see her again in a few years at most. Mary left this morning going toward Bisbee attended by a small boy and a hairless dog.

"For three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house," says A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely." For sale by all dealers in Tombstone and Bisbee.

# COUNTY RECORDS

Two mines Location Tevis' dit, by Wm. J. Ferries, Patrick Shield and Nic J. Hyland.

Ten Mining claims Dragon by A. M. Wells.

Official bond of M. G. Crowley of Pearce, W. M. Appel of Wilcox and W. P. Kealey, of Ft. Bowie. James Hardin and G. E. Waters release of mortgage.

# ARIZONA'S GROWTH

## Gradual Improvement Despite Hard Times.

WHILE the people of the east are complaining, and with much reason of hard times and the general depression of business, incident to the manufacture of prosperity waves, the McKinley model, we of Arizona can congratulate ourselves on a season of genuine prosperity based upon the development of our own resources. From every side comes the report of increasing business in cattle raising in mining, agriculture, horticulture, etc.; and the best proof that it is permanent lies in the fact that the railroad corporations, having an eye on the future and ready to grasp every opportunity to extend their lines into new and promising fields, are about to extend a line from the present terminus of the Gila Valley road to Globe which will connect with another branch from Phoenix to the same point. Also from Kingman, in the Atlantic and Pacific to the White Hills mining district and other points north of the Colorado.

The cattle men throughout the country are simply independent; instead of seeking buyers at ruinously low figures, as was the case a few years ago, they are now receiving good prices for all the cattle they can be persuaded to sell.

There is a marked revival in mining, in all its branches, throughout the Territory. Although the price of silver is so low that only very high grade ore extracted at the minimum cost can be made profitable, yet there are many claims being worked, particularly in this district, by chlorides, with a fair profit.

Taking every thing together we have no kick coming on account of hard times; and when we compare our condition with that of the eastern states, we have every reason to congratulate ourselves.

AGENT WANTED—Exceptional opportunity; old established high rated factory changing selling methods offers free samples, protected ground, to pushing salesmen. Several earning \$100 monthly. Leather, P. O. 1371, New York.

The account of the raiding of an opium joint in El Paso and the finding of a pearl ornamented pipe, calls to mind the man in Denver who had two "yen hoes" set with diamonds which were used alternately for cooking the drug and ear rings for his girl.

# Two Lives Saved.

Mrs. Phoebe Thomas of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such a relief, of which there are samples that prove the wonderful efficacy of the medicine in coughs and colds. Free trial bottles at Tombstone and Bisbee drug stores. Regular size 50c and \$1.00.

# \$100 REWARD!

FOR THE ARREST AND DETENTION OF WM. EVANS, robber, the above reward will be paid by the Sheriff of Cochise Co. Evans was tried and convicted at the May, 1897 term of court in Tombstone and sentenced for ten years in the penitentiary of Yuma, for holding up and robbing a bank and saloon in Bisbee, Jan. 2nd while being taken to Yuma Evans was shackled and handcuffed and escaped through the window while the train was in motion near Pantano 2 o'clock morning of the 3rd.

Age about 30 years, weight about 160 pounds about 5 feet 10 or 11 inches high, light complexion, sandy hair, thick he has light gray eyes alert and cat-like, when he escaped was clean shaven, mustache just shaved off, features sharp and "set" face, was wearing black felt hat and black suit of clothing, sack coat, wearing laced shoes No. 8. Has friends in Globe, Bisbee, Wilcox and Geronimo. Is a frequent visitor of gambling houses. Where information is to be at my expense.

MINING  
THIRTY-SEVENTH YEAR. ♦ ♦ ♦  
♦ ♦ ♦ WORLD-WIDE CIRCULATION. ♦ ♦ ♦  
Twenty Pages Weekly Illustrated.  
INDISPENSABLE TO MINING MEN.  
THREE DOLLARS PER YEAR, POSTPAID.  
SAMPLE COPIES FREE.  
MINING AND SCIENTIFIC PRESS,  
220 MARKET ST., SAN FRANCISCO, CAL.

The eastern mail arrived today.

Attention is called to the city notice in another column.

The ball grounds is being put in excellent shape for the base ball game on the 6th. It is cleared of all rocks and rubbish and is in good condition.

The offices of the Mining and Scientific Press have been removed from 220 to 230 Market street, San Francisco, Cal., the finest business location in that city.

Mr. Joe. McPherson is loading, for transportation to the railroad, the large Hoe press and fixtures, purchased from this office by A. T. Bird, of the "Oasis," Nogales. The Prospectors still retains six presses including a large power press run by an improved, double armstrong "engine."

The Prospectors desires to acknowledge with thanks the receipt of a basket of peaches sent to this office with the compliments of Mr. and Mrs. M. J. Brown. These peaches were grown on the premises of Mr. Brown and for size and delicacy of flavor can not be excelled by anything of the kind grown in California. They are also very rare being a hybrid known as the "Pride of Tombstone."

This is San Juan's day, and according to the accepted rule among Mexicans, it should be the beginning of the rainy season. The rain has not come yet, but allowing for the difference in time between Arizona and where San Juan is supposed to be, it may come in time yet.

Under the existing hard times, Arizona has no cause for complaint. Thousands of her cattle have been shipped over the Southern Pacific and the Atlantic, to say nothing of the mutton and wool shipments, and our rich output of copper, silver and gold. Arizona can stand the hard times, if the sinners of the east who brought them on and voted last November to continue them, can. Go right along with your "rat killing" Enact the Dingley bill and fasten the gold standard so firmly around your necks that it will require a sledgehammer, with Bob Fitzsimmons to wield it, and a cold-chisel to get it off.—Williams News.

# Best Spring Remedy.

# Paine's Celery Compound.

There is one true specific for diseases arising from impure blood and a debilitated nervous system, and that is Paine's celery compound, a generally prescribed by physicians. It is probably the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Phelps, M. D., L.L. D., of Dartmouth college, first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For the latter Paine's celery compound has succeeded again and again where every thing else has failed.

No "Poison" in the Teapot!  
It's the Pride of Japan (Tree) Tea that's brewing there.  
Here's what Thomas Price & Son, the San Francisco chemists, say:  
"We have made a searching chemical examination of Paine's Celery Compound and find it to be free from all mineral and organic adulterations, containing a perfectly pure tea."

P. Price's Cream Baking Powder. World's Fair Highest Medal and Diploma.

\$1000.00  
to be divided among the-----?-----of the missing word.

FINDERS is the answer.

Schilling's Best tea is not only pure but it is-----?-----because it is fresh-roasted.

What is the missing word?

Get Schilling's Best tea at your grocer's; take out the Yellow Ticket (there is one in every package); send it with your guess to address below before August 31st.

One word allowed for every yellow ticket. If your ticket (or tickets) reaches us before July 1st, you are entitled to two words for each ticket.

If only one person finds the word, he gets one thousand dollars. If several find it, the money will be divided equally among them.

Every one sending a yellow ticket will get a set of cardboard creeping babies at the end of the contest. Those sending three or more in one envelope will receive a charming 1898 calendar, no advertisement on it.

Besides this thousand dollars, we will pay \$150 each to the two persons who send in the largest number of yellow tickets in one envelope between June 15 and the end of the contest—August 31st.

Cut this out. You won't see it again for two weeks.

Address: SCHILLING'S BEST TEA SAN FRANCISCO.
